

Website and Email Hosting Made Easy

Our website and hosting packages are designed with simplicity in mind. In a nutshell, our support clients have hosting management included in with their support fee. If you don't subscribe to Netcom ongoing support then we will give you a username and password and access to your own hosting control panel which allows you to configure your hosting platform yourself.

All hosting clients get access to our support suite and knowledge base which includes FAQ's, downloads and support. Hosting clients can also call our support desk or email support@netcom.uk.net with any queries.

Prices exclude bolt on packages such as coldfusion and asp.net etc which are quoted on a per site basis.

Netcom, Web Hosting that Works! Don't take our word for it, here's what one of our clients has to say;

"My company has used Netcom for many years for all our web hosting and I'm pleased to say that I am delighted with the excellent services Netcom provides for us. Their hosting is reliable and backed-up with a level of expert personal service that is hard to find these days. I'd have no hesitation recommending Netcom to any company looking for a provider willing and able to deliver top class personal service."

Dennis Hanna (HTC Network Solutions Ltd)
